

Gene network homology in prokaryotes using a similarity search approach: queries of quorum sensing signal transduction.

Title	Gene network homology in prokaryotes using a similarity search ap
Publication Type	Journal Article
Year of Publication	2012
Authors	Quan, DN, Bentley, WE
Journal	PLoS Comput Biol
Volume	8
Issue	8
Pagination	e1002637
Date Published	2012
ISSN	1553-7358
Keywords	Bacterial Physiological Phenomena, Gene Regulatory Networks, Ope
Abstract	Bacterial cell-cell communication is mediated by small signaling mo
DOI	10.1371/journal.pcbi.1002637
Alternate Journal	PLoS Comput. Biol.
PubMed ID	22916001
PubMed Central ID	PMC3420918
