Title	Reports from the fifth edition of CAGI: The Critical Assessment of Genome Interpretation
Publication Type	Journal Article
Year of Publication	2019
Authors	Andreoletti, G, Pal, LR, Moulton, J, Brenner, SE
Journal	Hum Mutat
Date Published	2019 Jul 23
ISSN	1098-1004
Abstract	Interpretation of genome sequence variation plays a major and increasing role in the study of human disease. The critical assessment of genome interpretation (CAGI) is a community-wide effort to evaluate the accuracy of genome interpretation methods. The fifth edition of CAGI was held in 2019 and focused on the interpretation of genome sequence variation. The results of the fifth edition of CAGI are presented here.
